

JUNE Welcomes 5I Ventures (5IV) as Lead Investor, Laying the Foundation for Future Expansion and Growth

MUNICH, Germany – 18th March 2025

JUNE, the legal tech company behind the AI-driven Case Management Platform for the legal market, has successfully closed a major investment from Singapore-based 5I Ventures Pte. Ltd. In the Pre-A funding round, JUNE secures a total of 7.3 million euros from multiple investors under the leadership of 5IV.

Following the transaction, 5IV supports JUNE in its next growth phase. This strategic investment marks a key milestone in JUNE's mission to strengthen its position as a leader in AI and Automation for the legal sector.

JUNE is not just another legal tech tool – it's the AI-powered backbone of modern legal operations. By combining GenAI, AI Vision, NLP, and machine learning, JUNE transforms fragmented and unstructured legal data into structured insights, automates workflows, enables content creation from documents to reports, searches for hidden knowledge and streamlines case management like never before. Designed as a single source of truth, it adapts seamlessly to any system, industry, or jurisdiction. Whether for top-tier law firms or global enterprises, JUNE isn't just about managing legal work – it's about redefining how it's done.

Björn Frommer, Co-Founder and CEO of JUNE, expressed his gratitude to all stakeholders involved in facilitating this partnership: "We are thrilled to welcome 5I Ventures to the JUNE family. We've already seen the immense value this collaboration brings to our journey ahead. The team and I are confident that 5IV will play a crucial role in helping us achieve our strategic milestones, and we look forward to working even more closely together in the future."

With this new partnership, JUNE is set to expand its global presence and further enhance the operational efficiency of law firms and legal departments.

Lars Godzik, Founding Partner at 5I Ventures, shared his enthusiasm for the investment: "It is truly remarkable how JUNE has built a portfolio of esteemed clients – from renowned law firms to international corporations – in such a short time. We are honoured to be part of this journey. The potential ahead is immense, and together we will take the company to new heights, redefining how AI transforms the complex world of legal and litigation. We deeply appreciate the dedication of the entire team in making this partnership a reality and look forward to the exciting milestones ahead.

About JUNE:

JUNE is redefining the legal industry through AI and Automation. Built by a team of visionary developers, product managers, and legal experts, the platform transforms legal workflows into streamlined, intelligent processes. With cutting-edge technology at its core, JUNE empowers professionals to move beyond outdated systems and embrace a new era of efficiency. It's not just about managing cases – it's about revolutionizing how legal work gets done. One seamless platform. Limitless possibilities.

About 5I Ventures:
